

**My dear and beloved 99s around the world,**

life changed dramatically since the start of COVID 19. All of us have different restrictions in her personal and professional life.

I often think of all of you around the globe and whether you and your family are fine in this crazy times.

Don't forget the great spirit of the 99s. Everywhere and every time we are connected.

Take care and many greetings from my heart.

Andrea from Germany
